Educational & Equipment Grants

*Have you just left school or Sixth Form College?
Are you starting a University course, an apprenticeship
or other (recognised) course of training?*

This scheme exists to help those in Higher Education, at a University or similar establishment, and those on apprenticeships or schemes leading to higher qualifications (other than 'A' Levels). It is for books or other equipment (including laptops) needed for the course. The main requirements are that the applicant has been a resident in the village for the last two years of their secondary education and that their course is leading to a recognised qualification.

If you know any young person who may qualify for the scheme for this academic year please ask them to apply to The Administrator below for a form.

The grant is for up to **£200.00 per academic year.**

You do not have to spend all the £200 in one go. Claims can be made in December and July.

If you require a form for the next academic year, or further information, please contact The Administrator below:
