About Us

CAPALC is a membership organisation affiliated to NALC (the National Association of Local Councils), our national body who support and represent approximately 10,000 local councils and 80,000 councillors across England. NALC lobby central government on behalf of their members, and set national strategic policy, supported by a legal team. They also produce the LCR (Local Council Review) and the bi-weekly DIS (Direct Information Service), which are prime sources of information relating to the local council sector.

CAPALC is currently exclusively funded by its membership and training fees.

How is CAPALC run?

The CAPALC Ltd Board consists of appointed Directors and the County Executive Officer (CEO). The Board and CEO are jointly responsible for the strategic and financial management of the Association.

The County Executive Officer is a paid position with the CEO responsible for day to day management and responding to Member queries.

CAPALC staff also include an admin assistant and part time Development Officers/trainers.

As a membership association CAPALC staff are unable to answer queries from the general public.

Our Story

About us

Founded in 1972, SLCC has gone from strength to strength, starting with just 50 members and now representing clerks to over 5,000 local councils in England and Wales.

As the professional body for local council clerks and senior council employees, we ensure that our members are equipped with the necessary knowledge, training and skills to thrive within their role and best support their council and community.

Many councils understand the benefit of having a clerk who is trained, fully briefed on current issues within the sector and able to access accurate advice quickly. As such, 90% of our members' councils pay for their clerks' annual subscription, as encouraged by the Local Government Act 1972 s 143 (1) (b), 'a local Authority may pay reasonable subscriptions, whether annually or otherwise, to the funds of any association of officers or members of local authorities which was so formed.'

Whether you seek expert advice, to develop your professional career or simply build relationships with your fellow clerks, we can offer you the support and recognition you deserve.

Our vision

We are CPRE, the countryside charity. We want a thriving, beautiful countryside for everyone.

We believe in countryside and green spaces that are accessible to all, rich in nature and playing a crucial role in responding to the climate emergency.

With a local CPRE group in every county in England, we're advocating nationwide for the kind of countryside we all want: one with sustainable, healthy communities and available to more people than ever, including those who haven't benefited before.

We stand for a countryside that enriches all of our lives, regenerating our wellbeing, and that we in turn regenerate, protect and celebrate.

Some people might remember us as 'The Campaign to Protect Rural England' – our previous name, and one of several in our long history. We've worked for almost a century to support and promote the countryside, and we'll be doing this for generations to come. That's why we call ourselves 'the countryside charity'.

Payment options

A CPRE membership starts from £3 a month, but giving more will help us do more to promote, enhance and protect the countryside.

Please tell us how much you'd like to give, and how you would like to pay. We recommend a minimum of £3 a month, or £36 a year.

Housing needs surveys

See how our independent housing needs surveys can be used to bring about rural affordable housing development for local people.

About the project

Funder

Surveys are funded by the partners within our Rural Affordable Housing Partnership or by private developers.

Why is this needed?

Housing needs surveys are required to identify and prove the local need for housing. It helps to identify those who may not be on the housing register and future households who may not currently be looking for housing but will in the near future. Housing needs surveys are a key aspect of bringing rural affordable housing forwards as a proven need is required to allow the schemes to progress. Rural affordable housing is a really important aspect of rural life as it allows young people to remain in the villages they grew up, for those on low incomes to gain access to housing without having to leave the area and to enable communities to remain diverse and inclusive of all ages and backgrounds.

Cambridgeshire ACRE regularly engages with parish councils, local authorities and housing associations to discuss the housing issues facing our rural communities and put plans in place to address this. Our first stop in the process is having detailed conversations with parish councils about the rural affordable housing process, the benefits of rural affordable housing and myth busting some of the misconceptions. We then undertake a housing needs survey with the support of the relevant local authority and in most cases the parish council. Using these surveys we create detailed reports that outline the housing need within an area. This then allows the local authority, housing association and possibly developer to have valuable, informed discussions about a potential scheme that could go ahead.

How can you get involved?

The Rural Housing Enabler at Cambridgeshire ACRE can provide advice and support to parish councils regarding bring forward affordable housing in their parish. We can also advise housing associations, developers and landowners on what is involved in undertaking a survey and why this is required.

What impact has our work had?

The following impacts have been brought about through our housing need survey work:

- 30 Schemes in the last 8 years.
- Almost 400 homes delivered in last 8 years.
- Surveys undertaken in 8 parishes in the last year.
- Recent schemes include Chalk Hill in Foxton (2017) and Howgate Grove in Colne (2019) both of which helped to address local housing needs and were well supported by the local community.
